## セミナー情報

### 2021年9月 セミナー一覧

---

2021.9.10 (金) | セミナー

ロジックセミナー(13:15--15:00【会場：オンライン形式で開催】)

**発表者：**鈴木 悠大 氏 (東北大学)

**題目：**On the transfinite dependent choice in second order arithmetic

**概要：**

In [1], Rüede introduced some new subsystems of second order arithmetic: transfinite dependent choices and  $\omega$ -model reflections with specific properties. Also, he studied relationships between them. We will see his results and some related things.

[1]Christian Rüede. Transfinite dependent choice and  $\omega$ -model reflection. The Journal of Symbolic Logic, 67(3):1153–1168, 2002.

2021.9.27 (月) | セミナー

ロジックセミナー(13:15--15:00【会場：オンライン形式で開催】)

**発表者：**Leonardo Pacheco 氏 (東北大学)

**題目：**Determinacy and reflection principles in Second-order Arithmetic

**概要：**

In this presentation I will sketch a few results connecting determinacy and reflection principles in Second-Order Arithmetic. These results improve and generalize a result by Kołodziejczyk and Michalewski. I will also comment about some existing results on reflection principles in Second-Order Arithmetic.
